|--|--|
| <p> </p> | <p> </p> |

GirlScript Summer of Code (GSsoc)

- Contributed to open-source projects by fixing issues and submitting pull requests on GitHub.

| | |
|---------|---------------------|
| Scholar | July 2024 - present |
|---------|---------------------|

SheFi - Participated in a selective Web3 and decentralized finance (DeFi) learning cohort focused on financial literacy, blockchain, and investing.

PROJECTS

Resume Builder Web App

Preview

Tech Stack: HTML, CSS, JavaScript, React, Vite, jsPDF

Developed a responsive and beginner-friendly resume builder that allows users to input personal and professional details and download ATS-friendly resumes as PDFs. Integrated modern resume templates aligned with hiring trends. Implemented routing, form validation, state management, and PDF generation using client-side libraries. Focused on accessibility and simplicity for users with minimal technical background.

CERTIFICATES

Python Programming (*Kaggle*) [View Credentials](#)

Completed hands-on exercises covering Python fundamentals, control structures, functions, data structures, and libraries essential for data analysis and machine learning workflows.

TECHNICAL SKILLS

Languages C++, Javascript, HTML, CSS, Python, C

Technologies/Frameworks ReactJS, Figma, Github
